Please Review Project Information and Estimate for Approval:

Project Description (short): 29 (30 Characters)	I-95 NB Improvs B/O of 58-307
Project Description (long): 253 (254 Characters)	Breakout from project 0058-0307 for safety improvements and pavement rehabilitation on I-95 Northbound in Groton, Stonington and North Stonington. Design under DOT00580307PE. Similar work on I-95 Southbound to be constructed under project DOT00580307CN.

Justification: 686 (1333 Characters)	This project involves safety improvements and pavement rehabilitation on approximately 11.7 miles of I-95 Northbound, from the vicinity of Interchange 89, SR 614 (Allyn Street/Mystic Street) at Milepoint 99.9 to the Rhode Island State line at Milepoint 111.59. The safety improvements include upgrading the guiderail and bridge parapets to current design criteria, installation of protective fencing and concrete haunch removal on the bridges over I-95, and upgrading the illumination within the project limits. The pavement rehabilitation will consist of full depth reconstruction for approximately four miles and milling and overlay of the pavement for the remainder of the project.
Project Manager: Brian Natwick	This is the original RPM for informational purposes. The current cost of the project is \$51.8M. The FY26 conversion is for the remaining balance of the project. This project was originally authorized in FY22.
Project Engineer:
