

MEMORANDUM

TO: Amanda Kennedy
FROM: Katherine Rattan
DATE: December 15, 2025
SUBJECT: L0094-0003 Final Design Submission Endorsement, revised

SECOG staff request inclusion of the L0094-0003 Final Design Submission on the December Executive Committee agenda and referral from the Executive Committee to the full COG Board for endorsement of project L0094-0003, Intersection Improvement/Roundabout Installation at Broad Street and Williams Street in New London. This project will address safety and operational issues at the intersection of a principal arterial and a major collector. The estimate for the project includes \$4,645,933.66 in costs reimbursable by LOTCIP construction funds and 12,675.15 in additional costs to be paid for by the City of New London, a total project cost of \$4,658,608.81. Notably, plan and estimate changes resulting from SECOG consultant comments increased the estimate previously indicated (\$4,550,298.18).

The design package was reviewed by Tighe and Bond, SECOG's consultant for LOTCIP. Comments were addressed and the package was revised and submitted on December 12th.

CTDOT is working with the City of New London to expedite the review of the project to ensure a spring construction bid solicitation and finalization of ROW processes.

The Final Design Submission is available for review [here](#).
