boroughs in Southeastern Connecticut.

MEMORANDUM

TO: Amanda Kennedy
FROM: Katherine Rattan
DATE: November 14, 2025
SUBJECT: L0094-0003 Final Design Submission Endorsement

SECOG staff request inclusion of the L0094-0003 Final Design Submission on the December Executive Committee agenda and referral from the Executive Committee to the full COG Board for endorsement of project L0094-0003, Intersection Improvement/Roundabout Installation at Broad Street and Williams Street in New London. The estimate for the project is \$4,550,298.18. This project will address safety and operational issues at the intersection of a principal arterial and a major collector.

The design package was reviewed by Tighe and Bond, SECOG's consultant for LOTCIP. Comments are anticipated to be addressed by December 22nd, ahead of the COG's December meeting. If the City is unable to provide adequate comment by December 22nd the item should appear on the January agendas. Staff request the agenda item be added prior to receipt of the comment response in order for the project to be advertised in the spring which has both financial and contractor quality benefits.

CTDOT has been made aware of Rights of Way delays which prevented earlier submission and has agreed to review the project ahead of one remaining easement which is actively being negotiated.

The Final Design Submission is available for review [here](#).
