MEMORANDUM

TO: Amanda Kennedy
FROM: Kate Rattan
DATE: March 25, 2025
SUBJECT: LOTCIP 2024 Solicitation Executive Committee Recommendation Request

A full LOTCIP application has been received from the City of New London. The proposed project would replace the intersection of Vauxhall Street, Vauxhall Street Extension, Phillips Street, and the entrance to the shopping plaza with a roundabout to reduce vehicular and pedestrian conflicts.

The design addresses pedestrian and other non-motorized travel from the residential neighborhood and commercial properties on one side to the shopping plaza on the other side with the addition of crosswalks, sidewalks, and street lighting. The project area approximately extends from the intersection 750 feet up Vauxhall Street, 500 feet up Vauxhall Street Extension, 200 feet up Phillips Street, and 150 feet into the entrance of the shopping plaza.

This project will also address the multiple curb cuts surrounding the intersection to ensure the safe and efficient traffic flow in and out of the properties. Additional work will be completed to address the stormwater runoff with an enhanced drainage system and surface grading upgrades by incorporating vegetative and pervious infrastructure features.

The anticipated project costs for this project will be $4,009,220.56 including Contingencies and Incidentals for the project. Right-of-Way and Utility project costs will not be funded with LOTCIP funding for this project.

The application is available for review here.
